08052017 Lab

Build two applications using these two APIs:

Weather API: Simple change **q=beijing,china** to a different location to find city information
http://samples.openweathermap.org/data/2.5/weather?
q=beijing,china&appid=b1b15e88fa797225412429c1c50c122a1

Historical information for today:
